PROFILE

Hello! I'm Lochan, a passionate and dedicated web developer focused on delivering exceptional user experiences. With a strong foundation in web technologies and a commitment to continuous learning, I strive to stay at the forefront of the industry. I specialize in building responsive and visually captivating websites using HTML, CSS, and JavaScript. Leveraging frameworks like Next.js and tailwind CSS, I create dynamic and feature-rich web applications that engage users.

My expertise extends to server-side programming and database management, utilizing Node.js and MongoDB to ensure seamless user interactions and optimal performance. I also have a keen interest in motion and user interface animations, utilizing tools like Framer Motion to bring interfaces to life with smooth transitions.

What sets me apart is my meticulous attention to detail and dedication to producing clean and maintainable code. I prioritize adhering to best practices and industry standards to deliver high-quality work.

As a lifelong learner, I actively seek new challenges to further refine my skills. I am enthusiastic about collaborating with forward-thinking individuals and organizations to create innovative and impactful web solutions.

Thank you for taking the time to visit my portfolio. Please explore my projects to gain a deeper understanding of my capabilities. If you have any inquiries or would like to discuss potential opportunities, feel free to reach out to me.

WORK EXPERIENCE

School Online Systems Manager

MTS School 2018-Present

As a School Online Systems Manager at MTS School Sawai Madhopur, I played a pivotal role in managing and optimizing the school's online systems with a specialization in RTE (Right to Education) and BSER (Board of Secondary Education). During my tenure, I successfully oversaw and streamlined all aspects of student information management, ensuring efficient processes from admission forms to mark sheets.

Student Information Systems Administrator

Bright Sun School 2020-2023

As a School Online Systems Manager at Bright Sun School Sawai Madhopur, I played a vital role in managing and optimizing the school's online systems, with a particular focus on student admissions and overseeing various aspects of online school sites. During my tenure, I successfully implemented efficient processes and ensured smooth operations within the school's digital infrastructure.

Online Site Support Specialist

Shubham Sr. Sec. School 2020-2023

As an Online Site Support Specialist, my primary focus is on ensuring the seamless operation and resolving technical issues related to online school sites. With a specialization in supporting sites associated with the Right to Education (RTE) and Board of Secondary Education (BSER), I am dedicated to delivering exceptional online experiences for students, teachers, and administrators.

LOCHAN JANGID

FULL-STACK WEB DEVELOPER

TO WHOM IT MAY CONCERN,

GREETINGS!

I am Lochan, a passionate and driven 12th-class student with a strong interest in web development. I am writing to present my portfolio and showcase my skills in HTML, CSS, JavaScript, Next.js, Node.js, MongoDB, Tailwind CSS, and Framer Motion.

Throughout my journey as a self-taught developer, I have gained practical experience in front-end development using HTML, CSS, and JavaScript. I have also developed dynamic and interactive web applications using Next.js and leveraged the power of server-side rendering. Additionally, I have utilized Node.js for server-side development and worked with MongoDB as a database solution for building robust and scalable applications.

Furthermore, I have a keen eye for design and have honed my skills using Tailwind CSS, a utility-first CSS framework, to create aesthetically pleasing and responsive user interfaces. To bring my projects to life with fluid animations and transitions, I have utilized Framer Motion.

I am excited to contribute my knowledge and skills to real-world projects and collaborate with like-minded individuals or organizations. My portfolio showcases my projects and demonstrates my ability to translate ideas into functional and visually appealing web applications.

Thank you for taking the time to review my portfolio. I am eager to explore opportunities and contribute to the field of web development. Please feel free to reach out to me at lochanjangidcoder@gmail.com or +91 9024543045 for any further information or potential collaboration.

SINCERELY,

LOCHAN JANGID
